

## Olive Branch School Preservation Society

The Olive Branch School Preservation Society (OBSPS) is a group of local community members formed with the approval of the Tecumseh Local Board of Education to preserve the old Olive Branch School (round building on Route 40 in front of the Tecumseh Local Bus Garage). The mission of the society is “to promote and fund the preservation of Olive Branch School and local history, and to further the legacy of cooperation between the schools and community through public engagement”. Current activity of society members is to complete an application to the Ohio Historical Society to have the building placed on the National Registry of Historic Places and to pursue non-profit charity (501c(3)) status. Also, the group is collecting artifacts regarding Olive Branch School and about local history in general for inclusion in a museum room. For more information about the OBSPS, visit our website linked to the TL schools website at [www.tecumseh.k12.oh.us](http://www.tecumseh.k12.oh.us) or call Matt Curtis, Assistant Superintendent, at Central Office.
